SOURCE Shen Pao. (Information requested.)SHANG-HAI SULFURIC ACID PRODUCTION

The four firms in Shanghai that manufacture sulfuric acid produced a total of 7,210 tons during 1948. Two firms, the Hsin-yeh Sulfuric Acid Factory and the T'ien-kung Sulfuric Acid Factory use pure sulfur as raw material, while the Chung-hua Sulfuric Acid Factory and the Kiangsu Sulfuric Acid Factory use pyrite.

Disruption of raw material transport by civil war conditions has held down the production of these factories which have in better times produced as much as 12,638 tons in a year.
